BY LIVELIHOOD DEPARTMENT

ABOUT US

KIRAN society is a non-profit organization working in an inclusive way for the holistic development of children and persons with and without disabilities, and from marginalized sections of the society.

There are three main areas :

EDUCATION, HEALTH, and LIVELIHOOD.

The objective of the Livelihood Program is to provide income generating opportunities, and to reduce inequality by generating employment among the youths with and without disabilities.

Livelihood program is functioning basically in two-parts, first part is Vocational Skill Training unit and second one is Production unit.

Vocational Skill Training is designed to empower disabled and marginalised people to lead a dignified and independent life. It is designed to provide training in a variety of fields such as Carpentry, Horticulture, Bakery, Grihani, Tailoring, and other vocational skills.

In the **Production** part, we established three production units naming Wood Workshop, Art & Design, and Food Preservation, in alignment to provide employment for the people who challenged with disability.
