

Job Description:

Profile : Clinical Psychologist / Psychologist

Department: Health

We are seeking a **Clinical Psychologist or Psychologist** to join our team at the Health Department. In this role, you will provide essential psychological services, assessments, and therapeutic support to children and young adults with various cognitive and behavioural challenges.

Key Responsibilities

- **Conduct psychological assessments** for children and youth with suspected or diagnosed cognitive impairments, including developmental delay, intellectual disabilities, cerebral palsy, autism, ADHD, dyslexia, and learning disabilities.
- **Provide psychological evaluations** for individuals with anxiety, depression, and conduct disorders, as requested by other professionals.
- **Participate in multidisciplinary team meetings** to contribute to comprehensive evaluations and create effective rehabilitation plans, particularly for children with complex disabilities like cerebral palsy and autism.
- **Offer counselling services** to children, parents, guardians, caregivers, and siblings.
- **Lead psychodynamic therapy sessions** for children with psychological issues, involving parents as appropriate.
- **Provide written reports** detailing interventions and results to the professionals who requested them.
- **Contribute to and lead group therapy sessions**, parent training programs, music therapy, and animator training.
- **Conduct classroom visits** to support students in their educational environment.
- **Engage in unit and departmental meetings.**
- **Complete monthly and annual reports and plans** detailing past activities and future goals.

To Apply: Please email your application to hr@kiranvillage.org and satish@kiranvillage.org

Application Deadline: September 15, 2025

We appreciate all applications, but only those selected for an interview will be contacted.
